JUAN ANDRÉS GUERRA

Software Engineer
Buenos Aires, Argentina
juanguerracuenta@gmail.com | LinkedIn | GitHub

SUMMARY

Software Engineer with 5+ years of experience building and maintaining production-grade backend systems using .NET and Azure. Hands-on experience with cloud deployments, CI/CD pipelines, and serverless integrations. Strong background in API development, relational databases, and enterprise environments (insurance and banking). Comfortable working in distributed and remote-first teams.

EXPERIENCE

Software Developer *Jan 2022 – Jul 2024*
Nybble Group | Remote

- Contributed to the development and maintenance of enterprise-grade insurance applications using .NET, ASP.NET Core, SQL Server, and Angular.
- Managed application deployments across multiple environments using Azure DevOps pipelines (CI/CD).
- Implemented Azure Functions (HTTP triggers) to process Stripe webhook events, ensuring idempotent and secure payment handling.
- Investigated and resolved production incidents, ensuring system reliability and minimal downtime.

Backend Developer *Sep 2021 – Dec 2021*
Snoop Consulting | Remote

- Contributed to microservices migration from Java to .NET Core within a banking environment.
- Developed and maintained backend services using .NET Core, Oracle, and Entity Framework.
- Collaborated with cross-functional teams in agile sprints.

Full Stack Developer *Mar 2020 – Aug 2021*
Ar-Tech

- Developed backend systems using .NET Core and SQL Server for order management and sales forecasting platforms.
- Built multi-format invoice processing solutions (PDF/image parsing).
- Worked across frontend and backend layers in small agile teams.

Software Developer *Jan 2024 – Present*
Talios Factory Tech | Remote

- Developed and maintained web applications using .NET Core, React, and SQL Server.
- Built and deployed production-ready platforms including futbolero.ar and verdemercado.com.ar.

TECHNICAL SKILLS

Backend: C#, .NET Core, ASP.NET Core, Entity Framework, LINQ
Cloud: Azure DevOps, CI/CD Pipelines, Azure Functions
Databases: SQL Server, Oracle
Frontend: Angular, React, Blazor
Tools: Git, Scrum, Agile

EDUCATION

Ingeniería en Informática
Universidad Nacional de La Matanza
